

Health care is not the responsibility of the government alone, it is ours too.

“Social Justice” is a campaign to address the issues faced by the Doctors in delivering and the Patients in receiving quality care at an affordable cost at the right time, right place, right Doctor. Our Doctors are willing to put Care before Costs to strengthen revered Doctor – Patient relationship that is built on Trust.

To standardize the treatment regime and the costs and make it affordable and available to all in a transparent and accountable way

We the people of India feel that the Doctors should be free to admit and treat patients in any of the Hospitals belonging to Private, Public and Government Sector in India. For this to happen the Government should build State of Art Hospitals and allow the Doctors to admit and treat patients in them as mentioned above. The patients should also have the right to select his Doctor and the Hospital to get treated at a negotiated cost.

Doctors are licensed and regulated by MCI, are responsible for patient care and medical negligence. In patient care Doctors do not want any interference by the bureaucratic and financial constraints. Doctors want to give their best and collect their fee for the services rendered directly from the patient.

It is time to revert back to Home and Nursing Home Care

Builders build houses and the people make it home. Similarly, the builder builds Hospitals and the Doctors make it Nursing Homes to comfort the sick.

Corporatization of Hospitals and Care Delivery results in “Costs before care”. Whereas the “Care before Costs” will only come from your Family Physician.

- a. The Doctors / Hospitals and the Families accepting the above idea have joined hands by signing this Membership Form
b. Family Definition : Member, Spouse, 2 children below 18 years, Parents or Parents in law
c. The Member Families will be able to Choose their Family Physician / Physician / Surgeon / Hospital to get treated
