

**Social Justice**

**Doctor Membership Form**

“Social Justice” is a campaign to address the issues faced by the Doctors in delivering and Patients in receiving quality care at an affordable cost at the right time and at the right place. The Doctors are willing to put **Care before Cost** to strengthen revered **Doctor – Patient** relationship that is built on Trust.

**Doctors** should be free to admit and treat patients in any of the Hospitals belonging to Private, Public and Government Sector in India. For this to happen the Government should build State of Art Hospitals and allow the Doctors to admit and treat patients in them as mentioned above. The patients should also have the right to select his Doctor and the Hospital to get treated at a negotiated cost.

Since the Doctors are licensed and regulated by MCI, are responsible for **patient care and medical negligence**. In patient care Doctors do not want any bureaucratic interference or financial constraints. They want to give their best and collect their fee for the services rendered directly from the patient.

**Time to Change** : It is time to revert back to Home and Nursing Home Care

Builders build houses and people make it home. Similarly, the builder build Hospitals and the Doctors make it Nursing Home.

Corporatization of Hospitals and Care Delivery results in commercialization of Health Care.

- a. The Doctors and the Hospitals accepting the above idea may please join hands by signing this Membership Form
- b. The Member Doctors will be able to operate in any of the member Hospitals
- c. Anyuta TPA will wet the qualification certificates of member doctors and submit to the member hospitals
- d. This is a win-win situation for the doctors and hospitals since the unfilled hospital beds will be filled by these doctors and earn for both
