Payment details							Rs.1500

Anyuta is putting “Care before Costs” and empowering people to pay for their Family’s Health Care Costs

We are fully aware of Anyuta Trust activities and are willing to be the part of it. We join Anyuta Trust to create 24/7 Medical Surveillance, avoid unnecessary and over hospitalization, investigation, medication, procedures. We want to learn the ways of staying fit and healthy, Practice Preventive Care and adopt healthy living standards.

We want to undergo bi-annual medical check-ups by the Trust Allotted Family Physician, discuss with him issues like injury / illness / investigation / medication / procedures / benefits of Hospitalized care over Domiciliary / Outpatient care and then take the decisions. This will help us in cost cutting and getting quality care for the money’s worth.

With participatory and inclusive method, we can set up Medical Help Line, create 24/7 Clinic with Doctors available round the clock to listen to our medical issues and provide solutions over the phone and treat us in the clinic.

We are willing to pay for the services. To create a “Walk in Clinic” need a substantial member as members in an area. Then only we can have a Free Physical Examination and advice. We want to avail Family Group Health Insurance under Anyuta Trust where the Premium is low, and cover is high.

Understand the injury / illness/ investigation / medication / procedures / prognosis / benefit of the Hospitalized care over Domiciliary / Outpatient care and then take an informed Medical decision. In case of any medical emergency go to the nearest Hospital / Clinic and get treated. In case the Plaster (POP) is tight or the pain increases, numbness occurs, then remove the POP without waiting for the Doctor’s instruction.
